

LUNA

MINERS NFT

# Introduction

Cryptocurrency mining is the competitive process that verifies and adds new transactions to the blockchain for a cryptocurrency that uses the proof-of-work (PoW) method. The miner that is selected is rewarded with some amount of the currency and/or transaction fees.

# Problem

Currently, there is a stigma that **cryptocurrency mining is harmful to the environment** due to its high energy requirement and powerful computers needed to process transactions.

LUNA

MINERS NFT

WINERS NFT

LUNA

# Solution

Luna Miner's is a Decentralized Autonomous Organization (DAO) that mines PoW cryptocurrencies and shares the profits generated with Luna Miner's NFT holders managed by smart contracts. Luna Miner's mission is to develop a **fully transparent mining facility that is also environmentally sound.**

# Combining green and blockchain technology to usher in a new Era utility based NFTs !

Secure and decentralized multiple blockchain ecosystems.

Help make all blockchains a more environmentally friendly technology.

Community owned assets, housed and maintained in a safe location.

Passive income.

DAO , your voice counts ! (Voting)

Built to benefit protocols and individuals.

Participate in **Early Supporters  
Event** or **Minting Luna Miner's  
NFT** to Get **Exclusive Benefits** !

## Early Supporter (Miner Card)

- 2 votes per Card
- 5% of the Luna Miner NFT sale
- Exclusive Airdrops
- Auto whitelist for Luna Miner mint
- Access to facility stats
- Ability to write DAO Proposals

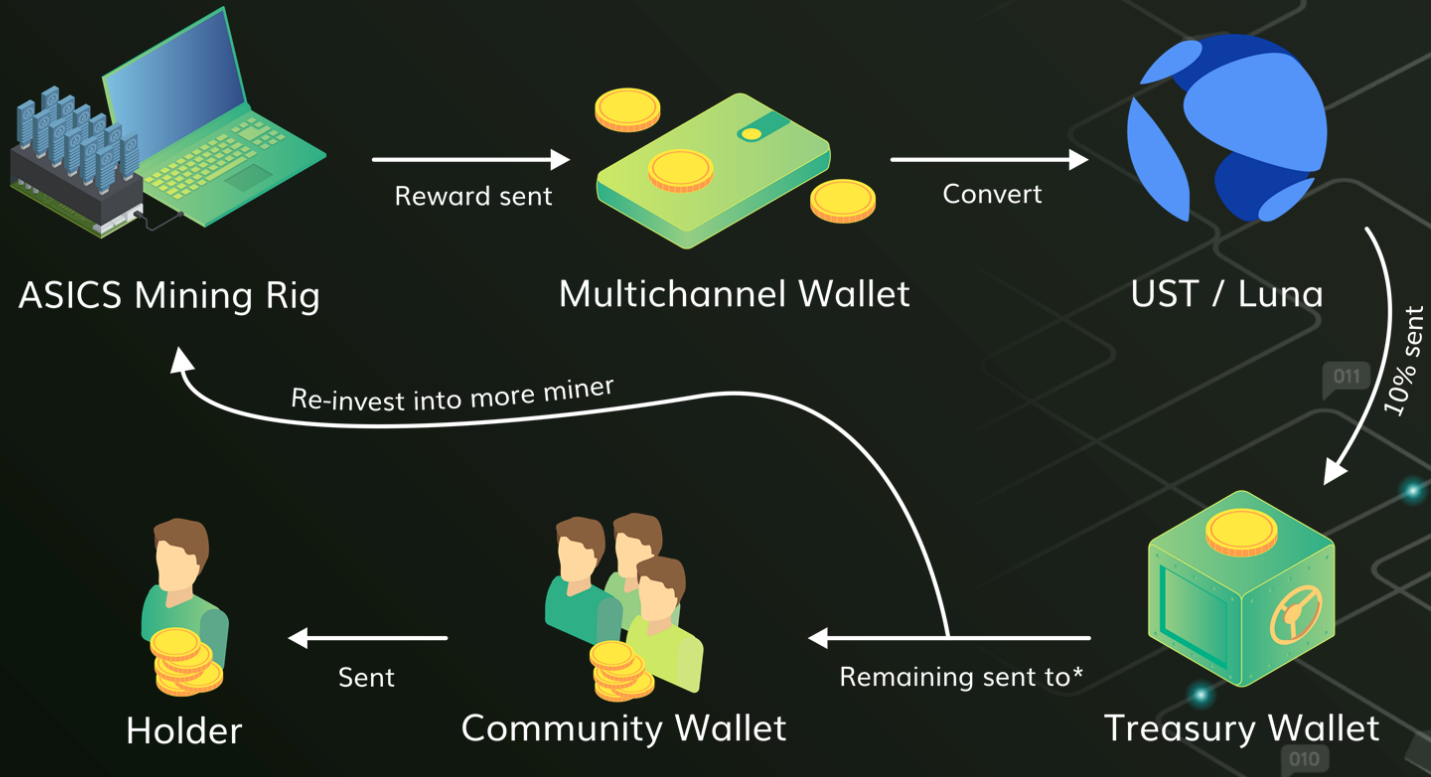

## Luna Miner NFT

- 1 vote per NFT
- Equal % of any revenue paid out to holders
- Equal % ownership over anything purchased by Luna Miner's DAO
- Access to facility stats
- Ability to write DAO proposals

*Profit distribution model, treasury percentages, and royalties will be permanent and cannot be changed by Luna Miners DAO voting.*

# How it Works

- \*Accordingly to community vote
- All assets bought by the Luna Miners DAO will be 100% owned by the NFT holders

# Voting

All voting will take place at the end of each month. We will be integrating Gravi DAO's technology into our project to ensure all voting is done fairly and securely. This system will ensure all Luna Miner's polls are conducted fairly.

# NFT Sale

Proceeds from the Miner Card sale will be used to finance the project. The funds will be used to **purchase Luna Miner's first KD6 mining rig to start generating revenue**. Remaining funds will be used to **develop website, discord, smart contracts, and salaries** to further develop the project.

# Funds from the Luna Miner NFT sale will allocated to the following:

60%

Buy high powered crypto miners to  
boost the profits

10%

Invested into green technology such  
as solar panel

10%

Shared with early partners such as  
WeFund

5%

Shared to wallets holding a  
Miner Card

5%

Shared to Angel Protocol to support a  
charity of the Luna Miner DAO's choice

10%

Project creator(s)

# Market Plan

Bootstrap Luna Miners with NFT sales by **combining energy saving solar panels with high powered crypto miners** and by compounding Miners monthly, it is possible to pump **hundreds of thousand dollars** into terra on a monthly basis through Luna Miners.

We expect increase profits by

400%

year over year .

# Long Term Vision

Luna Miners is looking to build a sustainable, decentralized ecosystem and mining facility that **offsets the energy requirements with green technology**. Luna Miners aims to utilize solar power to offset electricity costs and electricity generated from harmful sources. In addition to this, the heat the miners will also be repurposed for environmentally sound purposes.
